## ***30<sup>th</sup> International Panel Data Conference (IPDC)***

June 30<sup>th</sup> – July 1<sup>st</sup>, 2025

University of Montpellier, France

Since 1977, the International Panel Data Conference (IPDC) series has aimed to provide a fresh overview of the most recent developments on panel data, and a forum where econometricians, economists, statisticians and practitioners may actively share the main findings of their researcher.

The next conference will take place at the Faculty of Economics of the University of Montpellier, from Monday , June 30 to Tuesday, July 1<sup>st</sup>, 2025.

We encourage submissions related to full spectrum of panel data, from longitudinal to multilevel and cross-section-time-series data. Methods include factor models, nonparametric models, dynamic models, heterogenous models, quantile regressions, qualitative and count data models, models of network formation, spatial models, and many others. Topics and applications regarding forecasting, finance, artificial intelligence, innovation, productivity, climate change, health, labour, income inequality, development, and many more.

### Submission process:

Submissions can be uploaded from the 15<sup>th</sup> of December to 1<sup>st</sup> of March 2025 using the online form available at [www.ipdc2025.org](http://www.ipdc2025.org) (available from 15<sup>th</sup> of December).

Please submit a pdf file containing the full-length paper, though in a preliminary version, with the abstract stating aims, methodologies, empirical implementations, and main findings.

Looking forward to receiving your contributions, and to recreating the usual friendly and stimulating atmosphere of the IPDC in Montpellier.

Kind regards,

The 30<sup>th</sup> IPDC Local Organizing Committee  
Benoit MulKay, Sofia Patsali
